## Energy Resources and Technologies

With a population of over 300,000, Stockton, California is the 13th largest city in California. It is situated along the San Joaquin Delta waterway which connects to the San Francisco Bay and the Sacramento and San Joaquin Rivers. Stockton is the seat of San Joaquin County, one of the largest agricultural counties in the country. Stockton's diverse economy includes agriculture, manufacturing and distribution, office and administration, education, and health care. Stockton has a large diversified skilled and semi-skilled workforce with an affordable wage structure, in-place infrastructure, and an abundance of cultural, educational, and recreational opportunities.

Stockton, California is the perfect location for your business to grow and prosper.

### STOCKTON HAS THE OPPORTUNITY

Stockton's talented labor force, natural resources and affordable cost of doing business offers businesses the opportunity to compete and succeed. Stockton continues to support the growth of creative innovation for economic and environmental sustainability. The recently adopted Envision Stockton 2040 General Plan includes the City's Climate Action Plan and encourages the use of green and reusable energy sources for future development.

Stockton's waterways, year-round sunshine, agricultural resources, local talent, central location, and intermodal connectivity offer companies a range of opportunities to start, relocate, and grow your green business.

## STOCKTON HAS THE TALENT

The Stockton region hosts an array of post-secondary education institutions providing a skilled labor force equipped with the resources, creativity and ability to support innovative ideas. The University of the Pacific (UOP), a private university, was founded in 1851 and is California's first chartered institution of higher learning. CSU Stanislaus-Stockton Center, a branch campus of CSU Stanislaus, is located in the historic academic and medical campus of University Park in downtown Stockton. San Joaquin Delta College is an accredited two-year college that provides undergraduate studies with an enrollment of over 20,000

students per year and is the heart of post-secondary education curricula in the Central Valley. These local colleges offer over 100 certificate and degree programs in areas including: environmental studies, bioengineering, civil engineering, mechanical engineering, electrical engineering, chemistry, physics, robotics and automation technology, geology, and more.

## STOCKTON HAS THE RESOURCES

Stockton offers a number of resources, including various incentives and assistance programs that can be combined to create a unique package to assist companies start or relocate to Stockton. Stockton and San Joaquin County offer a number of networks of renewable and alternative energy companies and organizations, as well as local entrepreneurs and STEM students looking towards creative ideas to improve the air, water, and environmental quality.

Additionally, Stockton's intermodal connectivity provides companies the convenience to manufacture and distribute goods from the Stockton Metropolitan Airport, Port of Stockton, the Burlington Northern Santa Fe and Union Pacific Railways, and the major highways connecting the entire West Coast and to the rest of the country.
